

John Cline

Nationality: USA / Italy **Address:** 2001 Bayview Drive, Fort Lauderdale 33305, United States
Phone number: 9175961859 **Email address:** john7774@icloud.com

PROFILE

With over a decade of professional experience, I have excelled in roles as a network administrator, web developer, and graphic designer. An avid agilest and project manager specializing in enhancing productivity, project delivery, and improving all aspects of project methodology, I have a proven track record of success. My expertise spans across a wide range of technologies such as MERN Stack, ExpressJS, Nodejs, MongoDB, MySQL, ReactJS, Cluster/Cloud computing, AWS/GCP/AZURE, and Adobe Creative Suite. Additionally, I possess strong networking and data communication skills, multilingual capabilities, and a deep understanding of various cultural business etiquettes. These skills enable me to work effectively as an application developer, data analyst and scrum master.

WORK EXPERIENCE

Full Stack Developer / Engineer

White Cloud Technology Service Inc

05/2022 – Present FORT LAUDERDALE, FLORIDA, UNITED STATES

- Developed and deployed a backend server for mobile apps utilizing NodeJS
- Implemented MongoDB database access through ExpressJS and mongoose, including API testing
- Designed and tested database functions and faults in MongoDB
- Inserted and retrieved records using MySQL
- Utilized MySQL for record insertion and retrieval, and employed SQL for custom app database design
- Enhanced mobile app user experience by updating homepages using React, Bootstrap, Redux, and Router, as well as debugging animated features
- Build dashboards in Jira to help scrum team planning, efficiently manage sprints and keep track of time spent on specific issues.
